### **FOR IMMEDIATE RELEASE**

## **EXPANDED GLOBAL PRESENCE FOR E&A CFO GROUP**

When a multi-national manufacturer with operations in the Czech Republic, Germany, Ireland, India, and the U.S. turned to The E&A CFO Group in late 2015 for tax planning and business consulting services, it increased E&A's global reach to 56 countries on 6 continents. Who would expect a small, local, CPA firm like E&A would serve this diverse of a clientele? Other recent clients are from Jordan and South Africa. Foreign nationals living and working in the U.S., or U.S. citizens living and working abroad from around the world turn to E&A for their highly specialized tax needs.

Joseph T. Eckelkamp, President of E&A, said, "It's often hard for people to believe a small, CPA firm in the middle of the country has an international business reaching almost 30% of the world's countries". He added, "It's not that others can't do this work, but it's tricky. Unless you work with it a lot, it's very easy to get it wrong and mistakes can trigger extreme penalties".

E&A developed its specialty niche in U.S. expatriate services and foreign bank account reporting over many years. Large corporations employing foreign nationals and major universities are the primary drivers of demand for the services. However, increasingly, it is other accounting firms who choose not to fight the idiosyncrasies of foreign bank account reporting (FBARs), and clients using E&A's services that recommend E&A to employees, clients, friends and co-workers.
